

Adventist Health Bakersfield Emergency Room Opens New Entrance

Effective Wednesday, February 13, 2024, all walk-in emergency room patients for Adventist Health Bakersfield will be welcomed at a new entrance just around the corner from our current emergency room entrance. All patients arriving at the current entrance during this 90-day transition period will be triaged and treated through the current process. A free valet service will be available at the new location, and signage will direct our patients to the new entrance. This change will ensure that walk-in patients get expedited care. There will be no change in the emergency ambulance entrance. Our local EMS partners will present to the same ambulance bay.

For more information, call (661) 395-3000.
